- **Covid-19 update – C.A.P.T.**

Dear Customers and Partners,

Following the evolution in Italy of the epidemiological situation, the particularly widespread diffusive nature of the epidemic and the increase of cases within the national territory, the Italian Government, on March 23rd deemed necessary to adopt **further measures on the entire national territory** regarding the containment and management of the emergency from COVID-19.

- The latest emergency decree has ordered the lockdown of all the production activities, excluding those considered “essential”: among the various facilities providing supplies of primary importance such as food and beverage, as well as chemistry products and energy services and devices, C.A.P.T. is included in the range of companies and will remain open until further notice.

All our working activities will continue to run under the highest protective measures in order to both guarantee the safety of our employees and proceed with our production, as we will remain operational but with limited efficiency.

We are extremely sorry for any inconvenience that this situation might cause to you as our valued customers and partners, and we will take care of **notifying you about any further development of the situation**: please, you are kindly requested to **subscribe to our newsletter and follow our webpages on www.capt.it and www.linkedin.com/company/c.a.p.t.-s.r.l./** which are being constantly updated.

Thank you for your understanding.

Best regards,
C.A.P.T. S.r.l.

Alessandro Serafini
General Manager
